ABNS IEC 62612: 2013 Self-ballasted LED lamps for general lighting with supply voltages >50V – Performance requirements (IEC 60969: 2001-03 IDT)**Scope:**

This International Standard specifies the performance requirements, together with the test methods and conditions, required to show compliance of LED lamps with integral means for stable operation, intended for domestic and similar general lighting purposes, having:

- a rated power up to 60 W;
- a rated voltage of > 50 V a.c. up to 205 V a.c.;
- a lamp cap as listed in IEC 62560.

These performance requirements are additional to the safety requirements of IEC 62560.

The only feature provided by this standard, when applied for replacement purposes, is information on maximum lamp outlines.

The requirements of this standard relate to type testing. This standard covers LED lamps that intentionally produce white light, based on inorganic LEDs.

Recommendations for whole product testing or batch testing are under consideration.

The Antigua and Barbuda Bureau of Standards wishes to advise the General Public and all stakeholder agencies that effective November 24th, 2017 the following standard shall be declared to be a Standard, and an Antigua and Barbuda Standard, pursuant to section 17 (1) and (3) of the Standards Act (411) of the revised laws of Antigua and Barbuda, 1992 edition and section 3 (1) of the Standards Regulations 1998.
